Working Papers should comply with the following guidelines

- Working papers, in English, should not ordinarily exceed approximately 5000 words. Use of British spelling vis-à-vis American spelling in the text is encouraged. Use of stops in abbreviations and non-use of stops in the initials of a name is discouraged. Author(s) may submit soft copies of their working paper(s) along with extended abstract(s), all typed double space in MS-WORD format.

- The title of the paper should be concise and typed on a separate sheet including the name of author(s), affiliation and e-mail ID.

- An abstract of no more than 150 words and an extended abstract of not more than 500 words should precede the text of the paper.

- Acknowledgements, if any may be supplied in brief and on a separate page.

- Referencing should follow the order of author(s) name, year of publication, title of the paper/book/book chapter, name of the journal / title of the book, and numbers of volume, issue and pages / name of publisher and place of the publisher, as the case may be. Year of publication and the number of issue may appear in parentheses. Name of the journal / title of the book may appear in italics. All citations should be listed alphabetically after the body of the text. The following examples illustrate the referencing format.
